AMINO-80

Amino-80 is an organic fertiliser and biostimulant containing 80% amino acids, 16% organic nitrogen, and 17 critical amino acids. When applied, Amino-80 provides several benefits to both plant and soil health, including improved nutrient absorption, chlorophyll production, and stronger plant growth. The 16% organic nitrogen supports vigorous growth and enhances plant resilience, while the amino acids act as natural chelating agents, improving fertiliser efficiency.

Amino-80 promotes deeper root growth, better water retention, and helps pastures withstand harsh conditions. It boosts grass quality, supports livestock health, and increases farm productivity, making it an ideal solution for improving pasture systems and overall farm performance.

FIRST AID

- Eyes: Rinse with water for 15 minutes. Seek medical advice if irritation persists.
- Skin: Wash with soap and water. Seek medical advice if irritation develops.
- Inhalation: Move to fresh air. Seek medical advice if symptoms persist.
- Ingestion: Rinse mouth with water. Seek medical advice if necessary.

DIRECTIONS FOR USE

Spray until leaves are fully soaked.

Use 3 – 5 days after grazing.

Avoid impending rain or hot conditions

APPLICATION RATE

Boom: 5Kg per Hectare in 200-300L water

STORAGE

Store in a cool, dry place. Once opened, best used within 12 months.
